OTTERS HOLT

ASat Nav will take you to Towan village. As you drive through the hamlet, look out for a small access drive which is located to the left of the white cottage called Elmwood (if driving from St Merryn towards Constantine it will be on your right). There is a sign saying Otters Holt mounted on the telegraph pole. (image 1)

Turn into the driveway and the parking space for Otters Holt is on your left against the fence. (image 2)

Continue walking down the driveway (away from the road) and down four steps, the gate to Otters Holt is on your right. (image 3)

Follow the path, this will bear round to the left and will lead to the front door. (image 4)

The key safe is attached to the side of a wooden shed at the rear of the property, to find this follow the path around the right-hand side and enter the back garden through the gate. If the gate is locked, reach over the top to pull the bolt across, this will enable you to open the gate. The key safe is attached to the right-hand side of the wooden shed next to the French doors. (image 5) The key is for the front door, once inside the French doors can be opened from within.
